Summary

Full-Stack Software Developer with 3 years of experience building scalable, high-performance, user-centric web applications. Proficient in both front-end and back-end development with hands-on experience in JavaScript, React.js, Node.js, and modern frameworks like Next.js and TypeScript. Experienced in solving complex problems, optimizing performance, and delivering fully responsive, production-grade software solutions. Known for taking ownership and driving impact in fast-paced agile teams.

Technical Skills

Languages & Databases: JavaScript, TypeScript, MongoDB, MySQL

Frameworks & Tools: React.js, Next.js, Node.js, Express.js, Sequelize, Mongoose, Redux, Git, GitHub, Postman

Soft Skills

- Strong problem-solving and analytical thinking
- Effective communication and teamwork
- Adaptability in fast-paced environments
- Continuous learning and self-improvement mindset

Work Experience

Associate Full-Stack Developer   Aug 2023 – Present

ZealousWeb Technologies Pvt. Ltd, Ahmedabad

- Developed scalable web applications using Next.js, React.js, Node.js, and TypeScript.
- Independently handled front-end development for multiple enterprise-grade projects.
- Engineered dozens of scalable components for production applications, boosting UI performance by 30% using memoization, lazy loading, and efficient state handling with Context API and custom hooks.
- Led integration efforts for advanced UI patterns and state management strategies using Zustand and custom utilities to handle large-scale data.
- Collaborated with cross-functional teams to align technical solutions with client goals, reducing change requests by 25%.
- Delivered reusable utility functions and components, improving developer efficiency by 40%.

Software Developer Intern   Jan 2023 – June 2023

TechnoMark Solutions, Ahmedabad

- Collaborated with a full-stack development team to build and test internal tool features.
- Gained hands-on experience in REST APIs, React.js, and MongoDB.
- Implemented dynamic UI components and responsive layouts

Projects

SME (Zealousweb)

- Independently handled front-end development for a custom ERP system.
- Built dynamic modules for sales, user, and data management
- Created drag-and-drop image upload, dynamic auto-fill forms, and reusable field renderers.
- Integrated e-signature and resend-invitation-to-user feature.
- Reduced code duplication by 50% through reusable utilities
- **Tech Stack:** Next.js, TypeScript, Tailwind CSS

Tixstock (Zealousweb)

- Focused on debugging and performance optimization.
- Fixed legacy code bugs, improving reliability and maintainability.
- Improved app performance by 40% through code refactoring and lazy loading techniques.
- **Tech Stack:** React.js, TypeScript, Tailwind CSS

CatStat (Zealousweb)

- Led front-end development of a dynamic analytics dashboard platform.
- Implemented modules for revenue metrics, growth insights, and network activity.
- Added multi-factor authentication (email, SMS, authenticator app) and trusted device functionality.
- Enabled users to view and manage trusted devices, enhancing security and control.
- **Tech Stack:** Next.js, TypeScript, Tailwind CSS

ZealOverview (Zealousweb)

- Developed both back-end APIs and front-end interfaces for a CRM and productivity management system.
- Designed scalable back-end architecture with Sequelize, implementing authentication, role-based access control, and secure JWT-based sessions.
- Created reusable UI components and utility functions, reducing development time by 30%.
- Enhanced app performance by optimizing DB queries and implementing front-end code splitting.
- **Tech Stack:** React.js, Tailwind CSS, Node.js, Express.js, Sequelize, JWT, REST APIs

Education

Master of Computer Applications	**CGPA**: 8.10/10.0
Marwadi University, Rajkot	2021 – 2023
Bachelor of Science in Information Technology	**CGPA**: 8.92/10.0
Atmiya University, Rajkot	2018 – 2021
